MONO93 IMRON® FLEET LINE MONOPRIMER 93

PRODUCT DESCRIPTION

Imron Fleet Line 1K Wash primer MONO93 is a wash primer-surfacer with anti-corrosion and good filling properties. It is chromate-free, environmentally-responsible and user-friendly. Imron Fleet Line 1K Wash primer MONO93 promotes adhesion to various metals.

Filling wash primer-surfacer

FEATURES

- No primer required.
- 2 Delivers good topcoat hold-out and good overspray melt-in on large surfaces.
- Offers very good corrosion resistance over ferrous metal.
- **N** Provides good filling properties.
- **05** Suitable for overcoating with Imron Fleet Line 2K surfacers and topcoats.

Product mix	
	Mixing ratios with special agents are available in the productmix table on ChromaWeb and in the specific TDS.
S	DIN 4: 20 - 30 s at 20°C
DFT	15 - 20 μm primer 25 - 30 μm primer-surfacer
Theoretical coverage	290 - 300 m ² /l at 1 micron dry film thickness Due to different activator characteristics and different mixing ratios of the ready-to-use mixture in some TDS versions, the theoretical coverage calculation may vary. Note: The practical material consumption depends on several factors, e.g. geometry of the object, surface formation, application method, spray gun setting, inlet pressure, etc.
	Clean after use with a suitable solventbased guncleaner.
Remarks	

- Material has to be at room temperature (18-25°C) before use.
- Surplus ready for use material should not be returned to original can.
- · Mix thoroughly by hand before placing the can on mixing machine.
- Do not use polyester putty or Epoxy Primer-Surfacer over this product. Hardening and adhesion of polyester and epoxy products will be affected.
- · Adhesion and flow problems will occur with activated material older than 5 days.
